

Dasha Deriagina

UX/UI Designer & Web Developer

📍 Windsor, ON (Ready to relocate ASAP) | ✉️ thedash.dev@gmail.com |

🌐 dash-dev.net

I'm a UX/UI & Web Developer who loves creating websites that not only look good but actually feel good to use. My background in photography helps me see design differently — with emotion and story behind it. I enjoy building everything from scratch using Figma, HTML/CSS, JavaScript, Bootstrap, and WordPress. I care deeply about the small details, but even more about how people experience what I create.

Experience

Sep 2023 – Present

UX/UI Designer & Front-End Developer | Freelance

Present | Remote / Canada

- Design and develop responsive websites using Figma, HTML, CSS, JavaScript, and Bootstrap
- Build landing pages, design systems, and branded user interfaces for small business clients
- Collaborate directly with clients from idea to launch, offering both design and coding support
- Currently learning WordPress theme development to expand service offerings
- Known for clear communication, fast turnarounds, and creative attention to detail

Sep 2024 – Present

Product Designer | Google Developer Group Windsor

Part-time | Remote

- Designed and developed the official website for DevFest Windsor 2024 — from layout to launch
- Currently leading the redesign for DevFest Windsor 2025, focusing on accessibility and user experience
- Serve as a speaker and Figma mentor in community workshops, helping junior designers learn design tools and workflow
- Collaborate closely with developers and organizers to ensure strong visual identity and event clarity across platforms

Jan 2025 – Present

Head Administrator | Little Kickers Windsor-Essex

Part-time | Remote

- Manage class registrations, schedules, waitlists, and parent communications
 - Oversee program logistics and provide support to multiple coaches and locations
 - Developed strong organizational, problem-solving, and client communication skills
- This role strengthened my ability to manage fast-paced operations and work closely with diverse stakeholders — skills I now bring into my design and development work.*

Projects

The Lancer Method

Personal coaching website — full-cycle UX/UI design and front-end development using HTML, CSS, and Bootstrap. Currently working on migrating the project into a custom WordPress theme.

DevFest Windsor 2024 & 2025

Official websites for GDG Windsor's developer events. 2024 version fully launched; 2025 in active redesign phase.

AutoMap

One-page car service website designed and coded from scratch. Features custom icons, responsive layout, and testimonial carousel.

All projects are available at dash-dev.net/#projects
